Principal Arakaki's Message

Believe to Achieve - Stand Up! Be Heard! Let's Excel Now!

Dear Parents and Guardians,

October brought us much satisfaction as students gave their best effort in the classroom, worked hard to meet the suggested minutes on iReady (45-75 minutes per week at home) and had fun. We ended October on a high note with our Pumpkin Carving Ohana Night. Many families stopped by to carve their pumpkins. There were so many creative pumpkins and even a carved pineapple. Thank you families for supporting Pauoa Elementary School in our school wide events.

How quickly the school days are passing by as we embark into the month of November. We have so much to be thankful for. Here at Pauoa we are very fortunate to have very supportive and determined staff, students and school community. Everyone is willing to do what it takes for our students to be successful in everything that they do.

We look forward to our lunch with your keiki on Wednesday, November 27th. I can't wait! In the meantime, continue to take a genuine interest in your child's education by asking about their day, by providing them with a nice quiet area to complete their work, providing time to complete 45-75 minutes of iReady, and for signing of their planner. Please continue to, "Believe to Achieve! Stand up! Be heard! Let's excel now!"

Aloha,

Dale Arakaki, Principal

Grade 5: Mrs. Oliveira (C10), Ms. Nakamura (C9)

November is upon us and we continue to set goals and strive for them.

Over the moon we go as we continue our study of space in Science.

Vested are we in our understanding of the past as Social Studies has us looking at the effects history has on our world today!

Evidence and explain! We are working on constructed responses to make sure our opinion/answer is supported by evidence and explanations.

Meet our personal expectations in iReady and maintain a 70% accuracy!

Be vigilant with our homework and make sure tasks are completed in the highest quality!

Expect to work hard through December as we study decimal fractions, fractions, length, capacity, and mass.

Remember our 2 field trips in December! Dec. 3 is our orientation at Kawanakoa and Dec. 6 is HTY.

We wish our 5th grade families a restful Thanksgiving break and hope you are able to spend time with loved ones.

Grade K-2 Resource: Ms. Sumida (B2)

This school year is just flying past us. It's already November and you can feel the changes in the weather especially in the mornings. This coming month on November 13 is WORLD KINDNESS DAY. We will be discussing ways to show random acts of kindness to others in our school.

Grade 3-5 Resource: Mrs. Higa (B7)

This month B7 will be covering as follows:

Grade 3 and 4: noun, noun signals, verbs, sentence structures, subjects, sentence fragments, story elements. Review of Place Value, multiplication, multi-digit addition and subtraction.

Grade 5: main idea, supporting details, content vocabulary. Review of Place Value, multiplication and division fluency, fractions and measurements.

SEL (Social Emotional Learning) & PE: Mrs. Nguyen

Hello Families!

This past October we had a big focus on Unity Day. As a school we are continuing to have conversations about kindness, inclusion, and acceptance. We are also expecting our students to practice these behaviors everyday here at Pauoa School.

This month we will be working on Emotion Management. We will be talking about recognition and identification of feelings and how to calm down if and when these strong feeling take over our bodies.

The driving question about emotion management:

Can I recognize and identify my own feelings? Do I know how to calm down when I am feeling upset or uncomfortable?
How can I help someone else if I know they are feeling uncomfortable?

In Physical Education all students will be working on manipulative skills- these include: throwing, tossing, striking, and catching. Kindergarten through second grade will be continuously practicing these skills, while grades 3 through 5 will be assessed on these skills.

Continue to be on the lookout for your child's Social Emotional Learning and Physical Activity Journal this week. Journals need to be completed before their next PE specials class and turned in on the day of their specials.

Please keep actively moving with your child – aim for a family activity like walking, going to the park/beach, or exercising in your house for 60 minutes a day.

REMINDER- please help support your child by checking if they have packed their water bottle on their special's day rotation and if they are wearing their shoes!

STEM/Science: Mr. Sutherland

October was a busy month for our science students. Here are a couple of the highlights.

First grade continued their life science STEM investigations with the nest building challenge. Students spent time researching how birds build nests in the wild and then applied that knowledge to building nests of their own. Later, they will use what they learned from this lesson to build solid and secure structures for their own use. This lesson helps them meet the first grade NGSS standard 1-LS1-1: Use materials to design a solution to a human problem by mimicking how plants and/or animals use their external parts to help them survive, grow, and meet their needs.

Fourth grade has been working hard on their own STEM challenge, the Cheeto lift. The students need to use a collection of Legos to build a platform for lifting cheetos five feet into the air using a pulley. Any Cheetos they get to the top of the lift they can keep. For this challenge the students are required to work through all the steps of the engineering design process in order to come up with a successful solution.
