## FIFTH GRADE NEWS FLASH

Welcome back 5th graders!

Let's make your last year at Pauoa your most memorable year! We have an exciting year planned. For the first time in many years, we are going to Camp Erdman in November for 3 days and 2 nights! We also have a field trip in September to the Pacific Fleet Submarine Museum.

We are going to have an amazing school year together. Our goal is to help all students to become independent and resourceful learners in preparation for middle school. That being said, we kindly ask for your support in encouraging your child to complete all assignments independently and by the due date. Promoting this attribute of self-directed learning will increase self-accountability and take initiative for their learning.

Our partnership with parents is vital to the success of every child. You may contact us through email or by phone with any questions or concerns. We look forward to working with you.

Specials will now be on a 6-day rotation starting with Grade 1 on Monday Aug. 18<sup>th</sup>.

Please check our school calendar for you child's specials day. They must wear shoes and bring a refillable water bottle for PE.

## Technology Coordinator/Computer Science: Mr. Sutherland

Mr. Sutherland

Aloha Pauoa Parents and Students,  
I'm excited to welcome you all back to a new school year. While we will continue to use code.org as our basic coding instruction platform, we are expanding our curriculum to include computer design and function, network systems, computational data analysis, and the social impacts of computing. In practical terms, this means students will have more hands-on experiences with robotics, integrated circuits, and Scratch project programming, providing them with a comprehensive understanding of both the hardware and software aspects of technology. Our computer instruction at Pauoa follows the standards laid out by the Computer Science Teachers Association (CSTA), ensuring a high-quality education that prepares students for future academic and career opportunities. By exploring network systems and computational data analysis, students will learn about the infrastructure that enables global connectivity and the techniques used to interpret data. Additionally, the exploration of the social impacts of computing will encourage students to think critically about the ethical and societal implications of technology. We look forward to an exciting and productive year of learning and growth in computer science.

## Physical Education: Mr. Asuncion

Aloha Pauoa 'Ohana, My name is Joven Asuncion, and I'm glad to say that I will be the PE teacher again this school

year. Children in the lower grades will start off the year working on the main locomotor skills which are walking, running, jumping, hopping, sliding, skipping, etc., as well as staying in their own personal spaces. Students in the upper grades will start with getting their base scores for the FitnessGram assessment which is a tool that measures a student's fitness in five areas: aerobic capacity, body composition, flexibility, muscular strength, and muscular endurance. These scores will be kept the entire year and we will see if and how much each student improves throughout the year.

On the day of their PE class, **please have your child come prepared by wearing shoes, comfortable clothes, and bringing a filled water bottle.** I look forward to exercising with all of you. Let's have a great year!!!

## Hawaiian Studies: Kumu Imada

Aloha mai kākou, I am Kumu Imada. I am excited to continue Hawaiian studies at Pauoa. I will use Nā Hopena A'o ("HĀ") as a framework while incorporating grade level standards in each lesson. This will give students another opportunity to practice the skills they are learning in their core subjects.

Students will enter a space where we'll explore Hawaiian mele (song), mo'olelo (storytelling) and 'ōlelo (language). This year's goal is to get students exploring and working with their hands to help deepen their knowledge of Hawai'i and Pauoa.

I can't wait for your child to share with you what they learned in Hawaiian Studies!

Overall, this year will be amazing as all three specials subjects will collaborate together to make this year's learning more engaging. Check back for announcements our first school event coming soon!
